Creating your password

If you registered for Social Value International membership through our website after the new members area was launched (after 1 November 2018) you will have created a password at the same time and so can skip this step.

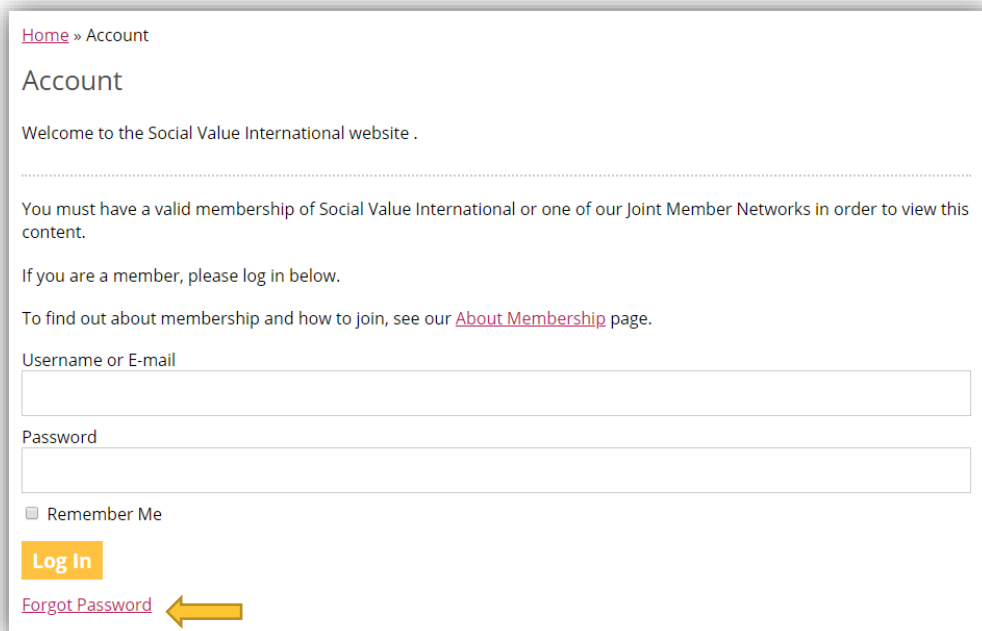

If you registered for membership before 1 November 2018 or if you did not register through our website (for example, if are a member of one of our joint networks) you will need to set up a password before you can access the members area.

Visit <https://socialvalueint.org>

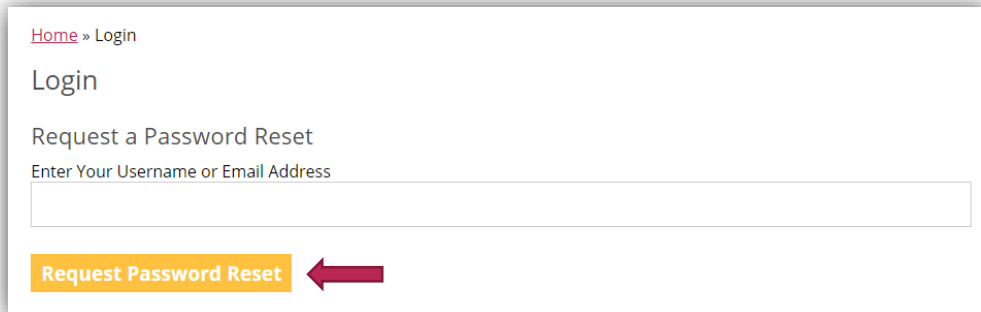

Click on the Members Area button in the header

On the log in screen, click "Forgot Password"

Enter the email address you used to create your membership (the same email address we sent this guide to) then click “Request Password Reset”. If you’re not sure what email address is associated with your account, you can email hello@socialvalueint.org to check.

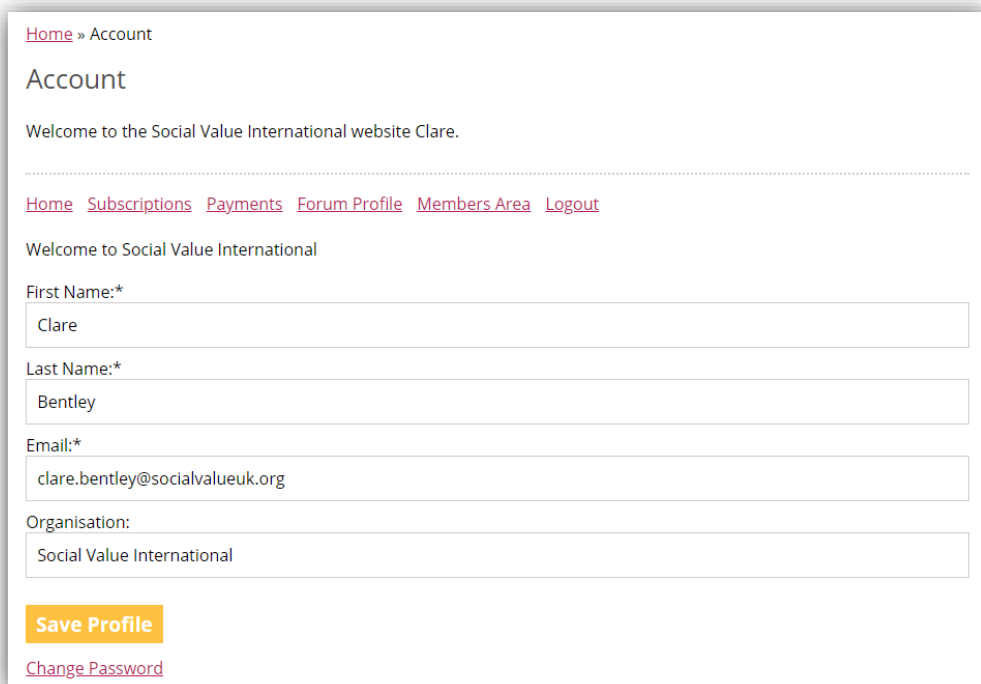

The screenshot shows a web page titled "Login" with a sub-header "Request a Password Reset". Below this is a text input field labeled "Enter Your Username or Email Address". At the bottom of the form is a yellow button labeled "Request Password Reset" with a red arrow pointing to it from the right.

Check your inbox for the password reset email. If you can't find it, check your spam folder. Follow the instructions in the email to reset your password.
